YOUSEF ALSAYED ABDELFATTAH

AI Engineer | Mechatronics & Embedded Systems

New Cairo, Egypt | +201153826643 | yousefabuelkhear@gmail.com | LinkedIn: yousef alsayed abdelfattah

PROFESSIONAL SUMMARY

Mechatronics graduate with experience in LLMs, RLHF, RAG, and QLoRA fine-tuning. Skilled in prompt engineering and AI model evaluation. Seeking an AI Engineering internship to apply LLM and agentic AI skills in a production setting.

EXPERIENCE

AI Data Specialist | Outlier Scale AI (Freelance) *Nov 2024 – Jan 2025 Remote*

- Applied RLHF to evaluate and refine 100+ LLM responses, improving alignment, safety, and output quality.
- Reviewed edge-case model outputs against legal, ethical, and policy requirements for safer deployment.
- Designed 20+ prompt engineering variations; analyzed model behavior to guide optimization.
- QA-reviewed 50+ analyst submissions and delivered feedback reports that improved annotation consistency.

EDUCATION

B.Sc. Mechatronics Engineering | Misr University for Science and Technology *Jun 2019 – Jun 2024 Cairo, Egypt*

- GPA 3.3 / 4.0 | Robotics, Embedded Systems, Computer Vision, Signal Processing

CERTIFICATIONS & COURSES

AI Engineer Core Track — Ed Donner — Udemy 2024 – Present

- LLM Engineering: inference, optimization, and production deployment of large language models.
- RAG: vector databases, semantic search, and document retrieval pipelines.
- QLoRA Fine-Tuning: parameter-efficient LLM fine-tuning with quantized low-rank adaptation.
- AI Agents: autonomous agents with tool use, memory, and multi-step reasoning.

CS50 AI with Python — HarvardX / edX (Verified) 2024

- Search (A*, Minimax), ML fundamentals, NLP, and computer vision using Python.

CS50 Introduction to Computer Science — HarvardX / edX (Verified) Dec 2023

- Algorithms, memory management, and problem solving in C and Python.

Full Embedded Systems Diploma — IMT School Dec 2023

- C, data structures, AVR microcontrollers, Embedded C, RTOS, and software engineering.

TECHNICAL SKILLS

AI / ML	LLMs, RLHF, Prompt Engineering, RAG, QLoRA, AI Agents, Computer Vision, NLP
Programming	Python (Advanced), C (Advanced), C++ (Intermediate), JavaScript (Familiar)
Tools	Git, Docker, React, HTML/CSS	AVR MCUs, RTOS, Embedded C

LANGUAGES

Arabic — Native **English** — Fluent
